SALZ WAREHOUSES SUFFER \$7,500 LOSS

Hoboes Believed To Have
Started Decoto Fire
Sunday Evening

Approximately \$7,500 damage was done when two warehouses belonging to Salz & Company at Decoto burned Sunday evening about 8:30 o'clock, the entire business district of Decoto being threatened at one time and saved by a preposterous wind. Fire departments from Niles, Newark and Centerville answered the S. O. S. sent out by the Decoto department which found the conflagration too far advanced to be subdued by their single efforts.

It is thought that the fire was started by tramps. The warehouses were filled with hay and it is reported were well covered by insurance.

The flames shot up so high they were visible almost from Hayward to Warm Springs. Hundreds of people heard the sirens and rushed to the scene of one of the most spectacular fires in the township for some time.

The Southern Pacific depot, the cannery and other warehouses were saved because the wind blew the fire in an opposite direction.

Mr. and Mrs. Harry Salz are away on a pleasure trip to Arizona but are expected home within the week.

M. K. Bliss, engineer of the Board of Underwriters of the Pacific Coast visited Decoto Monday and Wednesday, for the purpose of making a survey of the fire hazards and fire fighting equipment of the town, and also to make recommendations to the chief of the fire department as to future improvements.

While complementing the fire department on its record of holding the fire losses down, fire hydrants were pointed out to be of urgent need.

FIRE STARTS IN JUSTICE COURT

Sack of Coal Too Near
Stove Starts Small
Blaze; No Damage

There was a lot of hot air around Judge Allen G. Norris' justice court Tuesday morning, not meaning to be in contempt of his honor, either.

The fact of the matter was that a sack of coal near the stove ignited by too close association with said heating contrivance and started a small conflagration, which shortly after suffered annihilation without ensuing deprecation.

In plain English, the only damage was the loss of the sack of coal.

Beginning in May, Mission San Jose-Sunol road and the Sunol-Uhlin road will be oiled. This week, Cherry Lane, Walnut Lane, Morrison Canyon and Morrison avenue are being oiled, announces Roadmaster Joe Gomes.

Reported That Foshay Has Option On Township Firms

THAT THE Foshay Company which bought the Citizens' Water Company, of Niles, has secured an option on the water companies of Irvington, Newark and Centerville and is considering the installation of a water system in Mission San Jose is the report that has been given to The Register.

Manager Glassbrook, of the Niles office of the Foshay company, states that he would not be in a position to know anything about the matter as he has no connection with the purchasing department. However, if the deals are consummated, it is likely that the Niles office will have charge of the administration of all Foshay affairs in Washington township.

Better Homes Week will end Saturday, this annual event being one of the strong up-building forces in national life, according to President Herbert Hoover, who is the head of this educational institution for public service in the interests of home improvement.

Schools, churches, libraries, clubs and all organizations in the county have been asked to stress the importance of turning the eyes of the nations upon the effort to make better homes for American citizens.

A special plea is made to ministers to preach upon "The Spiritual Significance of the Home." Clubs meeting at this season are asked to include the community singing of "Old Kentucky Home," "There's No Place Like Home," etc.

"Better homes make better citizens—better citizens make better homes," stated Mrs. Edgar N. Pickering, general chairman for Alameda county.

Mrs. Roland Bendel is chairman for Washington Township.

There were 500 representatives of the Parent-Teachers Sixteenth District at the Richmond gathering Friday. Oakland won the "Dads" prize and the Washington school in Oakland, the first prize for publicity.

Girls' Week Celebrated With Splendid Program at Theater

Girls' Week was celebrated with a program at the Niles theater Wednesday evening that thoroughly demonstrated the fact that the local community has encouraging material for leadership among the future women of Niles. Tiny tots in the beginners' grades to the seniors of the grammar school rendered song and story in a manner that entertained for an hour and a half a capacity audience that had come to do honor to the girls of this vicinity.

The girls orchestra under the leadership of John C. Kimber rendered two numbers; the girls' glee club of Irvington, very attractive in red and white middie uniforms, sang Joyce Kilmer's "Trees" and the ever-popular "Santa Lucia." The Niles girls glee club in dainty dresses of rainbow tints, sang "Spring" and "One Fleeting Hour," doing exceptionally well in two part harmony.

The tiny tots were splendid in their interpretation of an operetta woven about the songs they have learned. A total lack of self-consciousness and an intelligence of presentation were marked.

Principal E. D. Bristow announced the program and an intermission was allowed for the Campfire Girls to sell home-made candy, the wares being disposed of speedily.

Another feature of the evening was the showing of moving pictures made at the corner-stone laying of the Jane R. Clough Memorial library last fall, many citizens of Niles being recognized in the showing.

The "Case of Lena Smith" was the feature picture, a splendid piece of acting but rather a tragic affair for the juvenile audience. However, the comedy was funny enough to make up for it and the evening was declared a success.

Harvey Braun and J. E. Townsend, representing the Niles Chamber of Commerce, and R. Bendel, representing the Decoto Chamber of Commerce, attended the Alameda County Chambers of Commerce meeting at the Oakland Hotel, Oakland, Tuesday evening, for the purpose of discussing county advertising.

Following a school of instruction, each lodge put on a stunt, Mrs. Ethel and Mrs. Rose Fournier, of Niles, putting on a short skit. A banquet and dancing closed the meeting.

BREAKING DOWN PRECEDENT

EVERY MAN, even in politics, should get his just dues. His good deeds should be applauded with the same enthusiasm that his frailties and weaknesses are magnified. In the past we have not always spoken in terms of praise of Herbert Hoover. But in our criticism we have been honest, and in most cases time has justified what we have said.

Today, however, we have good words for the man from Palo Alto who is now the chief executive of this nation. In true western style he is breaking down musty precedent and customs both expensive and undemocratic. And his good wife is also surprising Washington with her unostentatiousness.

The old Mayflower, palatial yacht of by-gone presidents, has been deposed from the purple existence of laying idle for months at the pleasure of the president, with steam up and a retinue of officers and crew at public expense waiting for a word to weigh anchor and sail down the Potomac with a presidential outing party. These affairs may have occurred in the past but a few times a year, but, in true regal fashion the president must have his slightest whim gratified to prove to the monarchies of Europe that a democracy can be quite as snobbish as the oldest house of heredity maintained upon a blade of steel.

Hoover says that when he wishes to cruise he will travel like a true American. He will buy his ticket and take a commercial boat. That sounds good to our ears attuned to the sound of democratic teachings. It rekindles our faith in the government of this nation, and makes us believe again that our forefathers after all builded well, and builded to endure.

And Mrs. Hoover. The first lady of the land also shows taste consonant with that of her illustrious husband. The other day she drove in her car through the streets of Washington alone, with no herd of secret service hounds trailing her up Pennsylvania avenue like she were a queen holding her place secure by a standing army of a million men and the suppression of a free press and free speech. Mrs. Hoover probably believes that her husband occupies the presidential chair, not by divine providence, but by the will of the people; that at the end of his term he may be removed, if unpopular; that the people are the masters and the arbiters of the government, and that because, temporarily, she is the mistress of the White House is no excuse to act as if she were of other than the same common clay of which all of us are made.

So this sickening, disgusting practice of having a president and his wife protected by a company of cavalry and an idiotic squad of plain-clothes "bulls" has been chucked into the ash can, and a western man has done the job.

Today we look in admiration upon our president, and trust that an administration so auspiciously begun, will add luster with age and strength with responsibilities, until at the last, posterity will pay it a tribute as great as that accorded the names of Jefferson, of Jackson, of Lincoln, of Roosevelt.

SHABBY FIGURE IN HIS OLD AGE

THERE WAS a time, years ago, when Arthur Brisbane reflected the lofty humanitarian aspirations of a great nation. There was a time in our young manhood, when we turned to his column sure to find inspiration for the better things in politics and economics. It was in those days that Brisbane was building his reputation, and welding together throughout the whole Union a confidence and influence that few men have enjoyed since the days of Horace Greeley and Wilbur Story.

In recent years we rarely read his column, and when we do, it is sure to bring us regret that so great a mind could have been tainted with and warped by the blight of financial success—that so versatile a pen should turn from war on graft and injustice, to tracing on paper the political philosophy of gigantic capital. We turn with pain from the spectacle of Brisbane's shameless, obsequious flattery of smart society and defense of its un-

No Other Bed in the World Like the BELL-CHESTERFIELD

Because the exclusive features of these beds have been patented by Joseph D. Bell, and they cannot be used by any other manufacturer.

Bell-Beds fold away with all bedding in place—they open to a full-size bed, 6 feet 4 inches in length, with a regular bed-end—there are no bars or boards beneath, to disturb the sleeper.

9-inch coil springs prevent sagging in the center of the bed—with the Bell Bed both sleepers have the advantage of fresh air, for the bed opens "straight-out."

Note the thickness of mattress that can be folded into the Bell-Chesterfield Bed and the fact that the seat of the Chesterfield is not used as part of the bed; and that it is regulation bed-height above the floor. "Am using the oil that has
stood up the best"—

M. Oliver specializes in long-distance hauling from Niles and operates a Fagool 5-ton truck and trailer. After very severe tests, he has decided upon Cycol Heavy oil, as the oil that has stood up the best in use.

"It was during my latest run"

—he writes, "from Niles to Paso Robles . . . that my mind was finally made up. This oil, unlike any other that I had tried, retained its body, causing better lubrication; no oil was added during the trip, thereby decreasing the cost."

No motor oil deposits less carbon than Cycol. It has amazing stability, maximum lubrication value. Cycol lasts longer; it assures an unbroken, protective oil film where heat, pressure and friction are greatest.

Sold at the red, green and cream stations.

The historic landing of revered Father Junipero Serra at Monterey was another step in civilization's romantic conquest of the Pacific slope.

Romantic bits of western history such as this are revealed in the Associated Oil Company radio program, "Roads to Romance."

**CHAMBER OF COMMERCE
APPOINTS COMMITTEE
FOR POLICE DISTRICT**

Petition Will Be Drawn
Up and Circulated
This Week

Appointment of a committee to circulate a petition in the Niles Sanitary District for the purpose of forming a police district in the same area featured the luncheon meeting of the Chamber of Commerce Tuesday.

Mr. Chown, representing the Caterpillar Tractor Company, at San Leandro, showed an educational picture of the Red River Lumber Company project, reported to be a most interesting entertainment.

Dr. Chas. Law was made chairman of the committee to circulate the police district petition. Assisting him are Ed. Rose, F. V. Jones and W. B. Kirk. This group of men will draw up the petition and have it ready for circulation this week.

The formation of the police district will call for a small tax levy and the election of five police commissioners who will direct the officers to be employed.

After the petition is presented to the Board of Supervisors, the date of the election will be published and the matter settled at the polls.

There is little doubt, however, that the matter will carry as residents of Niles have learned that complete protection day and night would be a desirable condition of affairs.

This protection will extend, however, only to the residents of the sanitary district. If the fire district wishes to be included, it might be wise to suggest the same.

**Seven Men Injured
In Auto Collision**

Seven men from Decoto were seriously injured near the Irvington-Mission intersection on the San Jose road just before midnight last Thursday when their cars collided. Six of them were taken to the Santa Clara county hospital where it was reported they would all recover. A strong odor of liquor lead Constable Tom Silva who was called to the scene of the accident to believe that one or more of them had been intoxicated.

Joe Ramos, Philip Ruiz, Pedro Martinez, Alberto, Renteria, Tapio and Mendota were the occupants of the cars, one a Studebaker sedan and the other a Dodge touring car.

**NILES CHURCH
NEEDS PIANO
FOR BEGINNERS**

Planning to Raise Money
for Kindergarten
Chairs Also

Interest at the Niles Congregational Sunday school at present is centering about the purchase of a piano for the primary department. About two years ago the Beginners' Class of under-school-age children was organized and established in the small office room in the front of the Sunday school structure. For several months this department has been out-growing its bounds and new equipment is seriously needed, including small kindergarten chairs and the piano.

Profits made at the dinner to be served to the Niles Ad Club next Tuesday evening at the Niles Congregational church will go toward the purchase of a piano.

At a meeting of the teachers last Sunday it was decided to have a food sale to raise the necessary money, time and place to be announced later. Presentation of a play called "The Rock," is also to raise funds for this project.

At a recent teachers' meeting it was also decided that the Easter offering which amounted to \$9.50 should be augmented to \$10 and sent to China Famine Relief Fund. The next \$5 of the birth day offerings will go to Miss Louise Torrence for her work among the African children.

A custom established at the Niles Sunday school by Rev. A. W. Seebart, pastor, is that of a special worship period resembling the worship part of a regular church service. Mr. Seebart believes that the children need training in worship as well as instruction in Bible literature and that it will also teach them that the sermon in the church service is an aid to worship and not the climax of the procedure.

**Excavation Started For Niles
New \$40,000 Bank Building**

Building to Be Completed
In 100 Working Days,
Say Contractors

The excavating tools, the song of the saw and the hammer, are ever signs of progress, and just now Niles walks by and looks with interested eyes at the preliminary work being done on the new Branch of the Bank of Alameda County, excavations having been started this past week.

E. T. Leiter and Sons, of Oakland, are the contractors and expect to finish the job in 100 working days, putting the opening of the new bank somewhere in July.

The structure will cost approximately \$40,000 and is to be built of brick and granite, a one-story building housing the bank and available space for one other business establishment.

The bricks are to be especially made for this building by the Dickey-Clay Company, every part of the structure to be the most modern and up-to-the-minute possible. It will be a decided asset to Niles' main street and is but another expression that the business men of this community feel in its growth and progress.

August May, of Alvarado, is president of the Bank of Alameda County with branches at Alvarado, Niles and Irvington. Robert

Blacow is local cashier with two assistants. The new bank will make a specialty of safe deposit boxes and every branch of service obtainable in any modern, metropolitan organization of this kind.

< What Famous Users Say About Richfield >

ART GOEBEL

ee Shortly after we broke the non-stop Coast to Coast record with Richfield Gasoline, we made a comparison of four well-known motor fuels. We discovered in this test that Richfield, in addition to giving us greater power and speed, would enable us to remain in the air two hours longer per one hundred gallons than any of the other fuels. Naturally, we used Richfield in our most recent victory, the Los Angeles to Cincinnati non-stop race. 99

One of America's foremost pilots...winner of the Dole-Hawaii flight; first to shatter the Army's five-year old transcontinental record and winner of the Los Angeles to Cincinnati non-stop race

Goebel adds his tribute to those of dozens of other leaders in the field of motordom, who endorse and use Richfield products—such men as Harry Miller, Fred Duesenberg, Anthony Fokker, Allan Loughhead, Harry Hartz, Captain Wilkins and Ralph Snoddy—men whose achievements as designers and pilots are internationally recognized.

Richfield's qualities—proved in grueling competitive events—are the same qualities you need in your own motor car—instant power, speed and acceleration without loss of mileage. What gasoline do you use?

Many telephone customers follow the modern style: "I give my own name—at once—and if it is a business call I also give the name of my firm. This establishes my identity."

Such an introduction permits both parties to get down to business without loss of time. And it makes a fine impression.

LOCAL GIRL MADE OFFICER FOR STATE BODY

Delegates from Washington Union High school to the California Scholarship Federation convention which was held at the San Mateo High school on Saturday, April 13, were: Miss Mary Beveridge, Marie White, Marjorie Martin, James Bunker and Genevieve Davilla.

One of the interesting discussions centered about the question as to whether or not the physical education grade should count as requirement for membership in the Honor Society. The meeting was in favor of counting this grade. Another discussion was whether scholarship was a major activity of the school. No one school counted it as such but there were several suggestions made as to method of making it of major importance.

Decorations of irises and lilacs added to the attractiveness of the cosy little hall which the Centerville women have made into a real home room.

YOUR QUESTION AND ITS ANSWER

QUESTION:

"I suffer from a rheumatic condition with stiffness and swelling of the joints. Have been troubled for six months. What will chiropractic do for me?"

ANSWER:

When the kidneys become congested and inactive and uric acid settles in the joints, causing a stiffness and swelling, you may be sure that the real cause is in the general condition. The blood is acid and your system is generally toxic. When these poisons accumulate they sometimes settle in the joints, (as in your case) and cause serious trouble. The most logical thing to do in a case like yours is to remove the cause—correct the acid condition and treat the effected parts. You should recover very rapidly with the proper treatment and I would advise commencing at once.

Too Much Backslapping Gets Newark Man in Bad

Theodore Ennes, of Newark, plead guilty to battery, and was fined \$30 before J. A. Silva, in the Niles justice court Tuesday, on a complaint sworn to by Joe Fortuna. It seems that Ennes started an uproar at a private party by some playful backslapping that proved a little too strenuous for the comfort of the recipient.

The Southern Pacific Company is making extensive improvements in the housing of their section help, having started two new houses which will house sixteen men. The old section house formerly occupied by several Mexican families is to be torn down and new buildings are to replace it.

Mrs. Walter Wyatt and daughter, Laurena, have returned from Los Angeles where they visited with Mrs. Wyatt's father who has been seriously ill.

Mr. and Mrs. Ellsworth Bettinger and daughter, Ruth, were visitors at the Steinhoff home on Sunday.

Mrs. Albert Pashote was a visitor in San Jose on Friday.

The Taylor family have moved to the Watkins home formerly occupied by the Butler's, who recently left for the East.

Mrs. Chas. Cockefair was a visitor in Oakland Saturday.

Many Newark people attended the Y. L. I card party in Niles last Thursday night.

Mrs. Wm. Lazzorine spent Tuesday in San Jose.

Niles Has Reputation For Getting Speeders

Niles has a reputation of "stepping on" speeders, carrying out the idea of the slogan, "Drive slow and see our town, drive fast and see our jail." Judge J. A. Silva says he is as easy as he can be on them, and yet the fines are sufficiently large to teach the speeders a lesson, as in the 2,500 or more cases handled, only two or three have proved repeaters.

Often residents of the bay cities have said in answer to the information that one is from Niles—"Niles! oh, yes; that's where the speed cops always get you!"

Interior of Rio Vista telephone offices redecored.

CLASS BLOWERS GIVE PROGRAM AT SCHOOL

One of the most interesting exhibitions ever staged at the Niles Grammar school was that given by the Bohemian glass blowers last Friday morning, witnessed by the student body and several outside visitors. The lecture and demonstration were interesting enough to entertain the first-grade pupils and some pre-school visitors for nearly an hour and a half, many informational items being included in the discourse.

How to make the tails of glass birds for Christmas tree ornaments, how to make "snow" for the same celebration, how to make bulbs for ornaments and to silver them; how to spin thread from glass, how to form animals, vases, flowers, etc., from glass of various colors, were among the high-lights of the performance.

The audience learned that blowing "glass bubbles" is as much fun as blowing soap bubbles, and once the process is learned is almost as easy. Care and patience seemed to be the two most important watch words of the glass-blower. The demonstrator told of how for two years he had done nothing but make medical thermometers.

A glass crane, a flower vase, a pitcher, several Christmas tree ornaments, glass threads and Christmas tree "snow" were made before the pupils and left at the school where they are now on exhibit.

These exhibitions arranged by Mr. Bristow for the pupils are well worth the patronage of the public. The need of a new and larger auditorium at the school was emphasized, there being scarcely standing room for the pupils in the present accommodation.

FOOD SALE CLEARS \$100 FOR CLUB WOMEN

Approximately \$100 was cleared at the food and flower show held at the Country Club of Washington Township last Saturday under the auspices of the Ways and Means committee, Mrs. Fern Mitte, chairman.

The waffle table cleared \$15 and the flowers, including plants from the California Nursery sold on commission, cleared more than \$25, the food table netting the remainder of the sum. As usual the supply of home-cooked food was far less in amount than that desired and many disappointed would-be customers came in only to "find the cupboard bare."

The club rooms were very attractive with the banks of plants and flowers and members and their friends came from all over the township to gather for a social afternoon. Mrs. Mitte and her committee wish to thank all those who assisted in making this affair a success.

Construction of 5,000,000-gallon reservoir started at Oceanside; project to cost approximately \$48,445.

TWO VIOLATORS IN SHADOW OF THE NILES JAIL

Twice within the last few weeks, violators of the liquor law have piled their trades within the very shadow of the justice court and the Niles jail, but like little Willie who insisted on seeing how the back of the mirror tasted, they are no more.

Tuesday, M. J. Cavanaugh, who has been operating a soft drink stand just across the street from the Niles library, was fined \$150 for possession of jackass.

Not long ago Art Roderick was similarly fined for operating an other alleged soft drink stand next to the library. Abatement proceedings under the prohibition law occurred and the place has been closed for a year.

Editorial Comment

By NORMAN H. PARKS, PUBLISHER REGISTER

(Continued From Page One)

American standard of morals, its snobbishness: his daily assumption that the elite of wealth and leisure is entitled by right to greater consideration from the government than the man of little or no means—a transplanted European idea entirely out of harmony with the early days of Brisbane and his people who struggled up from poverty and obscurity by grace of democratic institutions, which in the past placed reward on merit and industry—not blood and heredity. And up, and up he went, but alas—he proved to be one who could not move with kings, and still retain the common touch.

Listen to what the present Brisbane—not the Brisbane the world used to admire—has to say about the patriot Sandino—the citizen of Nicaragua who resented in a concrete way his opposition to a foreign host upon the soil of his native land:

"Congressmen fussing about Mr. Sandino, Nicaragua revolutionist, and sympathizing with his fondness for shooting American marines, represent their constituents poorly."

Words about like these were uttered by the Tory statesmen in England in 1776 with reference to George Washington. You know, George was shooting Englishmen at that time—Englishmen sent into the new world to cram down the throats of the colonists the rule of the tyrant. A century or so later, a country that cradled liberty, turns from the cardinal principles of democratic government—the inalienable right of life, liberty and the pursuit of happiness, and puts in motion its military machine to crush under its mighty heel a very weak and inoffensive nation, for no good reason at all, except the old reason of despots "that might makes right."

And a congressman rising in his seat at Washington and denouncing the late administration's attitude in Nicaragua "is serving his constituents poorly," according to the new philosophy of dollars and cutaway coats that have turned to ashes the once powerful position occupied by Arthur Brisbane in the hearts of men and women who believe there is something finer, nobler, grander in life than the mere possession of wealth.

And for a mess of pottage, genius has bartered away its soul, violated its conscience and to posterity has been lost what might have otherwise been a great character for history.

Brisbane has thrown away the bright blade that cuts its way through sham and pretense until the very thrones of greed and avarice trembled in dread of its Spartan thrusts—has thrown away the weapon that defended the weak, the poor, the unfortunate; and grasping the cudgels of the rich and powerful, he makes a shabby figure in his old age, reaching the end of life's trail having lost that for which millions long for, strive for, but few attain—renown!

the meeting would be held in the Egyptian Ball room, but the place was changed because the ladies who are to serve the dinner thought it would be more convenient for them at the church.

NEW FURNISHINGS ARE PUT IN FIRE HALL

New furnishings consisting of two tables and several chairs have been installed in the Niles Fire Hall, these accessories having been purchased with the money netted from the recent vaudeville put on at the Niles theater. Citizens who have not seen the interior of this attractive structure will be pleasantly surprised at its arrangement and decoration. Behind the office room is a small pantry and kitchen equipment with sink, gas plate dishes, etc.

A new sign has been placed on the front of the building indicating that it is the headquarters for the "Niles County Fire Protective District."

Francis Doorley of Newark Buys Durant

The Durant dealer in Newark is the most recent business man in the township to find that to reach the public he must use the columns of The Township Register—a paper that tries to give the reading public the facts and to serve with information needed by those who buy.

Patrons of The Register are learning that it pays to use our space to tell the public of their merchandise and each week new members are being added to our advertising family.

J. E. Pashote, of the Durant Agency at Newark, has recently sold a 60 Sedan DeLuxe to Francis Doorley, of Newark. According to Mr. Pashote, the Durant is gaining in popularity in this territory.

A new Durant Model 66, four speed forward, is expected to arrive at the Newark headquarters on April 25.

At breakfast they add new flavor and zest to cooked cereals. In bread and pastry they make old familiar foods seem like new delicacies.

And between meals everyone enjoys eating Nectars—"have you had your iron today?"
